## THE STORM.

The Most Severe for  
Years.

THE RAILROADS BLOCKADED.

No Telling when Communi-  
cation Will Be Opened.

The Rotary Snow Plow En-  
countered More than it  
Bargained For.

Another foot or more of snow fell last night, and the wind took it in hand and piled it up in front of railroad locomotives and on the tracks, so that it is impossible at this writing to tell anything about the trains. All the Southern Pacific trains west of us have been abandoned, however, and it would not be at all surprising if they were not through for a week.

At 10 A. M. Central Pacific train No. 4, which arrived from the East between 3 and 4 o'clock, was stuck in a snow-drift above Boca, with four engines and a snowplow ahead of it.

Train No. 2, from the East, due here at 9:20 A. M., was less than an hour late.

All the trains on the V. & T. have been abandoned, and nothing will go over the road until further orders.

The latest from the Southern Pacific Company is that "we will be in big luck if we get a train through in a week."

SUMMIT, Cal., Jan. 17.—It is still snowing and blowing hard. The thermometer is 27° above zero, and the barometer stands at 22.85". There are 20 feet of snow on a level. Trains 1 and 3 are still stuck where they were yesterday, at Blue Canyon, with one snowplow, and two plows are also stuck near Truckee. All east-bound trains are held at Blue Canyon until the snowplows get through.

BLUE CANYON, Cal., Jan. 17.—Everything is at a standstill.

EMIGRANT GAP, Cal., Jan. 17.—11:20 A. M.—The rotary snowplow has just pulled out for Blue Canyon. They will dig out the other plow and return up the road.

BLUE CANYON, Jan. 17.—1:15 P. M.—It is rumored that the rotary snowplow is stuck just east of here.

TRUCKEE, Jan. 17.—The passenger train that left Reno yesterday and which has been stuck in the snow just east of this place, will return to Reno.

## "The Princess."

A GAZETTE reporter witnessed the dress rehearsal of "The Princess" last night, and to say the costumes were fine but tamely expresses what was seen, and the parts were well sustained. The play certainly should be well patronized, and no doubt will be.

HOUSE.

WASHINGTON, Jan. 17.—McKinley called up his motion to table the motion to reconsider the vote by which the House yesterday refused to substitute the resolutions reported by the Committee on Rules (as amended by the adoption of Cannon's resolution) for the original resolution referred to the committee.

The motion to table the motion to reconsider was agreed to—yeas 144, nays 142.

The question then recurred on the adoption of the resolution, as follows: "That a select committee of nine members be appointed by the Speaker to be called 'The World's Fair Committee,' to which shall be referred all matters relating to the proposed celebration of the four hundredth anniversary of the discovery of America, or the World's Fair of 1892."

The resolution was adopted—yeas 141, nays 136—Springer of Illinois changing his vote from the negative to the affirmative in order to enter a motion to reconsider.

Springer said that he only desired that the committee should be instructed to report next week to the House a plan by which the location might be selected, but, as it now stood, the committee would be authorized to select the location. He withdrew his motion to reconsider, stating that he would trust to the fairness of the committee and of the House. Flower of New York introduced the New York World's Fair bill, and it was referred to the special committee when appointed. Raines of New York offered a resolution increasing the membership of that committee from 9 to 13. Referred to the Committee on Rules.

SENATE.

The Senate Committee on Territories decided to recommend the passage of a bill to make a State of Wyoming and to organize a Territorial form of Government for Oklahoma.

The committee decided that, inasmuch as a case is now pending before the Supreme Court involving the constitutionality of such a test oath as is required by the Constitution of Idaho regarding the Mormons, the bill for the admission of Idaho as a State should not be acted upon definitely until the Supreme Court rules upon that question.

WASHINGTON, Jan. 17.—Ex-Governor Foraker continued his testimony before the House committee investigating the ballot-box forgery this morning.

Ex-Governor Foraker continued his testimony before the House Committee investigating the ballot-box forgery this morning. He stated Wood had submitted to him some papers relating to the ballot-box matter, but he made no use of them, as they did not include what he wanted. Later Wood got a paper for him which bore the names of Sherman, Butterworth, McKinley and McPherson. Witness said he accepted the paper without a question as to its genuineness, and it has led to all the mortification he had experienced about this whole matter. As an honorable man would, he felt mortified to find that he had been imposed upon by a paper which, in the light of subsequent events, it appeared, should not have deceived him.

A Remarkable Increase.

By Associated Press.]

LAKED, TEXAS, Jan. 17.—The Mexican Consul of this city has prepared a report for the month of December last, which has created a sensation in business circles, owing to the unprecedented increase over any former months business. Exports to Mexico were \$770,000 and imports from Mexico \$890,000, making a total of \$1,660,000 for the month, and a grand total for the year 1889, of \$10,500,000, which is an increase of three hundred per cent over the year 1888.

An Attachment.

By Associated Press.]

NEW YORK, Jan. 17.—Judge Barrett in the Supreme Court chambers to-day granted an attachment against the property, in this State, of the San Diego and Eastern Terminal of California and Wm. H. Carlson and Wm. Graves. The writ was granted in a suit to recover \$16,480 with interest, on two notes executed by the corporation and endorsed by Carlson and Graves.

It is stated that capital has been offered in London for the construction of a railroad from Guadajajara to Chamela and Aguas Calientes.

The Government has sent a party of engineers to take soundings in the port of Vera Cruz in consequence of the report that the construction of the breakwater there was causing the harbor to fill with sand.

A Government official says, in reference to the rumor which has been put in circulation repeatedly that Mexico was endeavoring to negotiate a loan, that the finances of the country are in such a condition that a loan is unnecessary.

Mysterious Death.

By Associated Press.]

YORK, Pa., Jan. 17.—John Roehn, a merchant, was discovered by his wife, sitting on a chair in an upstairs room of his house last evening with his clothing burning. On her attempt to extinguish the flames she found that her husband was dead. An investigation showed that he had been shot through the heart and that the shot had set fire to his clothes. How he was shot is yet a mystery. His wife was down stairs and did not hear the report. A shotgun stood in the adjoining room, and the fresh burnt powder at its muzzle showed that the weapon had been used. Another strange feature is that a rifle cartridge, complete and unexploded, was taken from the man's body. Deceased leaves a wife and nine children, one only a few days old.

Another Boston Blaze.

By Associated Press.]

BOSTON, Jan. 17.—A fire broke out in Clafin, Coburn & Co.'s building this morning and spread with remarkable rapidity to the upper stories. The building is of stone, four stories high. The building adjoining, occupied by White & Emery, and Potter, White & Barley are each separated by thick brick walls, which prevented the fire from damaging them much. Clafin, Coburn & Co. are boot and shoe dealers and the firms adjoining are dealers in leather and shoe findings. An estimate of the loss places it between \$150,000 and \$200,000. The loss of the Clafin building alone is about \$100,000.

## The Panama Canal.

By Associated Press.]

PANAMA, Jan. 17.—The President of the committee which is studying the canal works, in an interview, said that the committee had found the condition of the works and plant extremely satisfactory. He denies the statement that the committee, five members of which are here, is or has been in any way influenced by the De Lesseps party. The committee is composed of twelve engineers, who have had no connection with or interest in either the Panama or Suez canals.

No report of the work of the engineers here will be published until they return to Paris and join their confreres, who are studying plans for the completion of the canal. Then a final report will be made as to whether the completion of the canal under the conditions conceded by Colombia in 1878 is considered possible.

WHOLESALE ADVICE

To Girls About Their Photo-

graphs.

The *Ladies Home Journal* contains the following: Learn to say no when asked for your photograph by someone not especially dear to you. In that little word is much that will protect you from evil tongues. Learn to think that your face is too sacred to decorate the apartment of Tom, Dick or Harry, no matter if each one of the three is one of the pleasantest fellows in the world. When the sun imprinted in black and white, just how sweet and how dainty you look, it did not mean that the picture should have incensed in the shape of tobacco smoke, or dubious praise in the form of your points rendered to it. Give away your picture with discretion.

Remember that some day will come along Prince Charming, who will have a right, the right owned by the master of the heart, to ask for the counterfeit presentment of yourself after he knows that he is going to have the real girl for his own. Think how mortified you would be if he should discover that the giving away of your photograph has been almost as general as the invitations to your New Year's party. Think how he will feel if he sees your face looking over the mantle shelf in Dick's room—Dick, whom he knows to be a braggart, and a man for whom he has the utmost contempt. Don't display your photographs to your men friends and you will not have this unpleasant task; but if you should do so and have not the courage to say the little monosyllable, be wise and refer them to papa.

The Silver State gets in its growth because the Board of Trade adopted a resolution appointing a committee to adopt and present a memorial to Congress, asking that body to cede all the Government lands in the State to Nevada. It says: "The disposition of the public lands in Nevada is of the greatest importance to the people of the State. As heretofore stated in these columns, if the public lands are all granted to the State without any restriction as to the quantity which it may dispose of to an individual or association, it is the opinion of men who have given the subject thought that it will make no difference to the present generation whether the proceeds of the sale of such lands be applied to storing water for irrigation purposes or not, as the land will become the property of a few persons, and the State for years will be nothing more or less than an extensive cattle or sheep range. To-day a poor man, with a small herd of cattle or flock of sheep, can obtain a foothold in Nevada, because he can graze his stock on the public domain. If that domain is ceded to the State, and, as was the case before, a purchasable Board of Regents is permitted to fix the price at which it will be sold, a few men will get control of it and Nevada will be a good State for the poor man to keep away from."

That is one object of the State Board of Trade—to form laws that will prevent land being taken in very large tracts by private individuals. Every Legislature we have had for the past ten or twelve years has memorialized Congress to cede the Government lands to the State, and it has been the universal wish and desire for the Government to do this, but because the Board of Trade asks it, and if granted will take steps to see that the gift is properly protected, it meets with the Silver State's disapproval. It is astonishing to see with what persistency some men "ride" any proposition calculated to better our condition. They will neither do anything themselves or allow any one else to if in their power to prevent it.

The winter bids fair to be severe in more ways than one. The snow is piled up in the mountains to a depth varying from six to thirty feet, while in the valleys of the State it is from ten inches to two feet. Unless it settles or goes off entirely within a very few days live stock will begin to die off like sheep in a clover patch. All traffic is stopped on the mountains and south, and the end is not yet.

It is not at all hard to guess who "Nodrog," or Gordon, is that is writing the Reno letters to the Virginia Chronicle. It is quite amusing to see the little worms wiggle.

#### VALUABLE PRESENT.

Every Old as Well as New Subscriber Gets One.

The article the GAZETTE is giving away is no cheap or common-place affair, it is something every family ought to have. It is a Medical book for home use.

A book that is valuable, and choice in its language.

A book of 480 pages.

A book which you do not have to keep under lock and key.

A well printed book.

A well bound book.

50,000 copies have sold in the last six months.

It is a \$3 book which is given away.

OUR PURPOSE—We are making this new departure for two reasons:

First, We wish in this way to express to our Old Subscribers our appreciation of their patronage.

Second, We hope to induce a large number of New Subscribers to take our paper.

OUR PLAN—We shall give a copy of this three dollar book to each one of our subscribers this year, old as well as new, as follows:

A new subscriber who sends for the WEEKLY GAZETTE and STOCKMAN for one year at \$2.00 in advance, we will give a copy of this \$3.00 book.

To any old subscriber who will renew his or her subscription for one year, at \$2.00 in advance, and get us one new subscriber at \$2.00, we will give a copy of the book.

In this case, the new subscriber will also get a copy of the book with his year's subscription.

To all delinquent subscribers who will pay arrears, and renew for one year, at \$2.00 in advance, and give us one new subscriber at \$2.00, we will give a copy of this \$3.00 book.

The new subscribers will also get a book.

Where the book is sent by mail, 20 cents must accompany the order for postage.

#### SHAKESPEARE'S FAIRIES.

The Fairy School Had but One Chief, the Bard of Avon.

There is one part of the "Merry Wives" which especially seems to favor the belief that the piece was originally a court diversion. The scene with the false fairies has the sportive character, and the touch of ballet, which such courtly pastime preferred. It is curious to compare the false fairies of the "Merry Wives" with the true fairies of the "Midsummer-Night's Dream," that most fairy piece of writing in the world. Probably the serious and poetic sprites are the earlier.

The quarto of the Dream is dated 1600, but the comedy is mentioned two years before in the Palladis Tamia (1598). So, to Shakespeare's fancy, his Welsh fairy, and the rest of his masquerading citizens, may have been an English rendering, almost an intentional travesty, of those Athenian fays, more sweet of voice than the Nereides, who departed, the wedding over, "Following darkness like a dream."

The Windsor sprites began by being prosaic enough, and the very slang of the stage comes in when they cry: "Go, get us properties, And tricking for our fairies."

or, "wherein fat Falstaff Hath a great scene."

But when once the fairy queen of these mimic imps appears, the poet can not help himself, but must make her poetical, nay, must show his old sympathies with the fantastic folk and knowledge of their world.

"Fairies, black, gray, green and white, You moonshine revelers, and shades of night, You orphan heirs of fixed destiny, Attend your office, and your quality. Cries Holobolus, make the fairy eyes." Orphan-heirs of fixed destiny, these are indeed the fairies, the shadows of the ancient dead, of the old classic gods, unredeemed, who dwell in their own allotted half-world of reflected light and double shadow, the court of Queen Prosperina.

"Pinch them, arms, legs, backs, shoulders, sides and shins." This is their little part in the moral government of things, the every-day or every-night duty, so peasant belief held, of "We fairies that do run By the triple Hecate's team."

From the presence of the sun, Following darkness like a dream."

The dread Hecate became in the middle ages the sovereign of mere moonlit mischief.

But the pure poetry of old loyalty reasserts itself in this courtly command: "Search Windsor Castle, elves, within and out; Strew good luck, ophes, on every sacred spot."

That it may stand till the perpetual doom, In state as wholesome, as in state 'tis fit, Worthy the owner, and the owner fit."

And *Honi soit qui mal y pense*, write, In emerald tufts, flowers purple, blue and white."

Then the poetry vanishes with the fays, who brought it, as only to Shakespeare they could bring it, for he, too, like Corneille, had his *lutin*, his brownie, who never deserted him when he sang of the border of the two worlds, and the realms between night and light, between ghosts and men.

The Ettrick Shepherd, in a burst of confidence, once assured Sir Walter Scott, "Awn the chief of a far higher schule than yours, the Mountain and Fairy schule."

But the good Shepherd overestimated himself. The Fairy school hath but one chief—Shakespeare—and Herrick is his ancient.—Andrew Lang, in Harper's Magazine.

#### THEY LOVE SWEETS.

How Bread Is Made in Different Countries of Asia.

The bread of different Asiatic nations is worthy of mention. In China, India, Japan and Corea by no means all the people live upon rice. In North China much wheat is used, and Northern India is one of the best wheat-growing districts of the world. The Chinese boil all their bread instead of baking it, or if baked at all it is browned after boiling. In Egypt the bread of the lowest classes is largely made of sorghum seed, and in North India and North China millet is largely used. Both Chinese and Japanese are fond of sweet cake, and in Japan one of the most popular cakes is almost exactly like our sponge cake. It is said to have been brought over from Holland by the Dutch Christians when they came to Japan centuries ago, and you will find it all over the country. The Turks are very fond of sweet cake, and the sweet-cake peddlers of Cairo and Constantinople are the noisiest of their kind. It is the same with candy as it is with cake. Some of the best candy I have ever eaten I bought of a pig-tailed merchant in the Chinese city of Peking. He had nut candy of all kinds, and he told me he imported some of his nuts from Mongolia for his shop. The Smyrna fig paste is noted the world over, and you will find it in every confectioner's store in the country. Turkish nugat is one of the favorite dainties of the harem, and it tastes better when you eat it fresh at Constantinople than when it is six months old and is sold in America. At a dinner which I once attended in upper Egypt we had a course of candy between each one of the other courses, and we had at least ten desserts during the meal. The Turkish tooth is a very sweet tooth, and with sweetened water sherbets, candies and cakes he makes his thick blood flow slower and slower.—F. G. Carpenter, in Omaha Bee.

The medicinal qualities of nutmegs are worthy of a great deal of attention. They are fragrant in odor, warm and grateful to the taste, and possess decided sedative, astringent and soporific properties. In the following affections they will be found highly serviceable: Gastralgia (neuralgia of the stomach), cholera morbus, flatulent cholera, dysentery, cholera infantum and infantile cholera. In all cases nutmegs may be prepared for administration in the following manner. Grate one or more nutmegs into a very fine powder. For children, give one-sixth to one-third of a teaspoonful, according to the age, of this powder, mixed with a small quantity of milk. For adults, from a half to two teaspoonfuls may be given in the same way according to the severity of the case. Every two hours is generally the best time to administer this remedy. Insomnia (sleeplessness) is very often effectually relieved by one or two doses of nutmeg, when much stronger agents have signally failed.—Louisville Courier-Journal.

RESTORED HER HEALTH.

For 20 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, I stored my health as far as I could hope for at my age, which is now seventy-five years. Mrs. S. JOTTINGS.

J. J. Becker's good fires, easy chairs and hot lunches are luxuries that are appreciated such weather as this.

The crowds to be seen around the Arcade tables at meal times show that people like the way Lemery gets up his meals.

While the disagreeable storm continues, George Becker's Granite saloon is a pretty good place to keep out of the way of a gripper.

Before the snow falls any deeper, get a few cords of J. E. Atkins's dry limb or split wood or a quantity of his \$12 50 hard coal.

By pricing J. N. Wallace's family groceries you will find that he is not being undersold by any firm in town, and his goods are first-class.

The leading weekly pictorial, the month ly and quarterly magazines and all the leading San Francisco and Sacramento dailies at C. A. Thurston's.

What is more palatable than cold and stormy mornings than slugs of "Our Taste" hams. Leadbetter keeps them. He also has boneless bacon.

The storm in no way affects C. J. Brooklin's trade for people are obliged to have his stationery and blank books, besides a thousand other useful things.

"Phil," driver of the Riverside cutter never fails to meet all passenger trains on all the roads, and all patrons of the house, with their luggage are carried free.

The "Gazette's" Premium a First-Class Medical Work

Having examined the advance sheets of the work entitled "Our Family Physician," I can say that I find it accurate in its descriptions of diseases and reliable in its therapeutic department.

J. F. COOK, M. D., Professor of Theory and Practice, Hahnemann Medical College.

I hereby certify that I have examined a work entitled "Our Family Physician," and find it to be correct in its diagnosis, and in my opinion, worthy of the confidence of the public. H. A. HANSEN, M. D.

I have examined the advance sheets of "Our Family Physician," and find it to be correct in its diagnosis, and in my opinion, worthy of the confidence of the public. H. A. HANSEN, M. D.

After examining the publication "Our Family Physician" I can fully endorse the opinions expressed of its merits by the above gentlemen. R. A. GUNN, M. D., Professor of the Burnett Medical College.

The book contains a valuable chapter of symptoms, which will aid wonderfully in diagnosing diseases and the proper medical treatment. It is given for Allopatis, homeopathy, Eclectic, hydropathic and Herbal treatment.

We have a number of the books on hand, and we invite inspection.

The Best There Is.

A new typewriter has been invented by the party who invented half of the Remington and all of the Caligraph. It has no ribbon, no wooden bars, but is all steel, prints true and without any blur. It costs an even hundred dollars, and is worth two of any other machine. It prints better, wears longer, is easier to learn and work faster, besides other recommendations.

C. A. BRAGO, Agent.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was—Free trial bottles of this Great Discovery at W. F. Pinner's Drug Store, large bottles 50c. and \$1.00.

Happy Hoosiers.

Wm. Timmons, Postmaster of Idaho, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from indigestion and liver trouble." John Leslie, farmer and stockman of same place, says: "Find the Electric Bitter to be the best Liver and Kidney medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c. a bottle at Wm. Finner's drug store."

The best advice in the world for cuts, bruises, oozes, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or to pay required, it is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale everywhere.

To sickleheads and Rascals. J. Westlake makes men's heavy French putty ball stock to order for 35c. Try a pair. Repairing neatly and promptly done.

STUCK ON A PICKET.

A Reno Physician in an Uncomfortable Fix.

Yesterday morning one of Reno's most prominent disciples of Esculapius was called to attend a brother physician, who was suffering from la gripe. When he reached the residence of the sick man he found that the snow had drifted so as to completely blockade the gate, being nearly on a level with the top of the fence which was of the picket variety. The crust that had formed on the top of the drift was strong enough to bear a man with big, wide-brimmed overshoes, provided he did not stand in one place too long, and the worthy doctor smiled at the prospect of walking right over another man's fence. He got to the top all right enough, but as he stepped over the gate he struck a soft spot, and down he came straddle of the fence. He was in a fix and he knew it. The more he struggled to rise from his pointed seat the tighter he seemed to stick, the pickets apparently taking a fiendish delight in getting tangled up in his coat tails and holding him fast. He was finally released from his uncomfortable position by the servant girl, who pried him off the perch with a mop handle. There was no damage done outside of a severe fracture in the bust of his pantaloon.

LA GRIPE.

Its Symptoms, Sensations and Treatment.

In a late number of the Baltimore American a writer says the true gripper is not dangerous, but is liable to frighten the timid. When first taken with it one feels like making a will, if there be anything to give away, though just at the moment one would rather give the gripper away than anything else on earth. The next feeling is as if one were about to have a convulsion from uricemic poison, with an irrepressible wish that the convulsion would come to its end and finish the business. The third marked symptom is the sensation of having several tons suspended from the legs, back and other weak parts of the body; and the last marked feature, one common to several maladies, is a general collapse of the system and a prayerful desire for dissolution.

Antiperistaltic sulphate of quinine and morphia, in adequate proportions, is a sovereign remedy; but to some it is almost as bad as the malady, as it causes nausea for several days after the gripper has released his tentacles and slipped his hold on fresh pastures.

When you have at this time, during the march of the epidemic, intense pain in the head and limbs, and fluttering (but at times sharp) fever, you may be certain you have la gripe.

Ice on the River.

The ice on the river in most places from Laughton's to the canyon at the foot of the Meadows is from four to ten inches thick, with about fourteen inches of snow on top of it. A sudden thaw following this storm would create a rise in canoe stock, as the river would be so high as to cause some apprehension of a small-sized flood. The GAZETTE's weather prophet hasn't been around for a day or two, and it is impossible to foretell with accuracy what we will have until he is consulted.

La Gripe and Kindred Diseases. Dr. Bergstein says that he has not a case of la gripe. He says there are a great many cases of bad colds and a few cases of pneumonia and bronchitis, and with these exceptions the town is quite healthy.

Dr. Lewis says the unusual amount of sickness in the town is undoubtedly due to a mild form of la gripe, as it has every symptom in a modified form of that disease.

Discount on Bullion.

The discount on silver bullion reduced the coin value of the December yield of the Hale & Norcross mine \$12,000. The discount on the yield of the Con. Cal. & Va. for that month was \$42,450. The discount on the entire December yield of the lode footed up \$102,000—more than one-sixth of the amount of the total product.

The N. C. & O.

The little N. C. & O. goes jerking along, snow or no snow, and as yet has not missed a trip. It has the advantage of running through a country not buried deeply with the beautiful, and unless it comes rougher by half than it has thus far, the chances are that it will continue to make its regular trips.

Slippery Walks.

The sidewalks around town for the past few weeks have been in a very slippery condition, and many tumbles have been the result. A person needs spiked shoes and an alpenstock to get along with any degree of safety.

The Sick.

C. T. Bender, Charles Gulling, Dr. Thomas, S. D. King, Miss Copper, Professor Devoil and quite a number of others are confined to their homes with la gripe or very bad colds.

\$25 Reward.

For the production of papers relative to Col. F. C. Lerds position as paymaster in the army, which were lost between my store and residence.

N. P. JAKES.

Waked Up Effectually. A lethargic, dormant condition of the liver is hardly to be overcome with drastic cathartics and a nervous cholagogue. A gentler, pleasanter and far more effective means exists of arousing the organ when somnolent. This is Hostetter's Stomach Bitters, vouchsafed by the medical fraternity, tested by the public for many years. A resumption by the biliary organs of its secretory function, with the activity attendant upon health, a return to regularity of the bowels, and a renewal of digestion, are the no less happy and certain results of using the Bitters systematically. Its laxative effect is never painful and denuding, its tendency being rather to perpetuate regularity than to produce a copious action. Malaria, nervousness, debility, kidney troubles and neuralgia it subdues effectually.

Advice to Mothers.

Mrs. Westlake's Southern Syrup should always be used for children teething, it soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. For sale everywhere.

SAN FRANCISCO

DANGER.

So says Chief Scannell, and with his long and varied experience in matters pertaining to conflagrations, we naturally give him the benefit of the doubt.

We, as tax-payers, property-owners and citizens, are deeply interested in this impending and sure-to-come danger. We hate to feel that when we leave our cozy homes in the morning that there is any such thing as their being in ruins when we return.

The cry is, more hose, more engines, more men that can be enlisted and paid to remain at the engine-houses of the fire department, which means more strength to aid in putting down this terrible conflagration when it does come. Now, strength is what everything has to have to do service in a greater or less degree. Man acquires this much-needed strength by various means. Exercise, plenty of fresh air, good food, outdoor life, regular intervals, and the use of the GREAT SERRA-KIDNEY AND LIVER CURE.

A man may look ever so healthy, and think himself in the best of conditions and yet have diseased kidneys. Anatomical science treats that the kidneys are so poorly supplied with nerves of sensation that when diseased and inflamed they can sound no alarm. It is that reason it behooves us to be very watchful, and by the use of the never-failing remedy, THE GREAT SERRA-KIDNEY AND LIVER CURE, keep these important organs of existence in perfect health.

All druggists sell these valuable goods. Take no other.

While Richard Herz continues in business here Reno people need not fear that they will be obliged to pay two prices for their watches and jewelry.

Be sure to get Hood's Sarsaparilla if you want an honest, reliable medicine. Do not take any other which is alleged to be "about the same" or "just as good." Insist upon having Hood's Sarsaparilla, which is peculiar to itself. Sold by all druggists. Try it.

CHURCHILL ITEMS. Slaughtering Wild Cats—Great Loss of Range Cattle.

ST. CLAIR, Nev., Jan. 16, 1890. EDITOR GAZETTE: The Carson Sink ranchers have lately made a raid upon wild cats with a success unheard of before. This varmint having become so plentiful as to threaten their poultry roosts with dire destruction, the farmers resolved to attack them while their farm labor was temporarily delayed by the freeze-up. The chase was carried on mostly by a band of dogs which were aided in tracking the beasts by a slight fall of "the beautiful," which has occurred almost every night. The dogs would either kill the cats in open combat when overtaken or else tree them, in which case the hunters, mounted and armed with shotguns, attracted by the yelping of the dogs, would come up and despatch the animal. The ranchers have entered the fight with a vehemence worthy of all the sport and money there is in it. Nearly 100 cats have been scalped on the Carson river in this vicinity during the past month—a greater number than the casual observer might suppose was in the county. Captain Lem Allen and his valiant company have made 25 felines bite the dust and have beaten the record by capturing nine in a single day.

We are getting rather colder here than we asked for, or are accustomed to. This protracted cold spell is a severe blow to the stock interests of this section. Scores of cattle die daily from starvation and exhaustion. Leading stockmen estimate that there is already a loss of one-half the range cattle, and a whole herd of herds endeavor to console themselves with the belief that the remnant will be worth twice or treble as much another year. Cattle men seem to prefer allowing their stock to die rather than to purchase feed for them or to give them to other small stock owners who would winter them for their possession.

Loco. HE TOOK THE WRONG MEDICINE. Robert Stewart, of Petaluma, recently had a queer experience. He writes: "Cathartics and pills afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surprise it made matters worse. This made me lose faith in sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out as the medical sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same benefit. ROBERT STEWART, Petaluma, Cal."

Explanatory Note—The mineral salts of potash, which is the basis of nearly all other sarsaparillas, attacks the blood directly, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alteratives stimulate the liver, cleanse the internal channels, remove the impurities and skin eruptions at once. (See above for a similar case in point.)

DIED. APPLEBERG—In Carson City, Nevada, January 15, 1890, Carl O. Appleberg, a lad about 60 years.

FURNITURE.

We have spent many years perfecting our Mail Order Department, and the many orders we are now receiving daily is proof that our work has met with universal satisfaction.

We have just issued A Handsome, Illustrated CATALOGUE.

Containing nearly 300 illustrations. It is undoubtedly the most complete furniture catalogue ever issued. The representations are truthful, and parties at a distance need not hesitate in ordering, as WE POSITIVELY GUARANTEE SATISFACTION.

Year after year we have been Awarded first premium at California State Fair.

Child's Walking Chair. PRICE, \$3.00.

We make the very finest furniture in California, which is proven by the fact that we frequently receive orders from Oakland, San Francisco and other large cities.

We also carry a Line of Cheap Medium Furniture

Special attention is called to the fact that the freight charges from Sacramento are less than from other points.
